Course Information

Course Title	AI Agents for Trading (C177)
Course Reference	C177
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 7.5 instructional hours · 8 clock hours including tea breaks
Daily Timing	9:00 am - 6:00 pm (1-hour lunch; two 15-minute tea breaks)
Mode	Instructor-led, concept-first learning with connected Python labs
Trainer	Course Trainer

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how a bounded AI trading agent combines a model, instructions, tools, state, evidence, guardrails, and human control without becoming an autonomous money manager.
- LO2: Research a trading idea with an AI agent and convert it into a structured, falsifiable hypothesis with explicit rules, assumptions, evidence, and rejection criteria.
- LO3: Connect the agent workflow to an authorised market-data source and validate coverage, timestamps, corporate-action adjustments, completeness, consistency, and freshness before use.
- LO4: Define deterministic trading rules, run an honest backtest, compare a benchmark, and audit data leakage, friction assumptions, overfitting, and out-of-sample behaviour.
- LO5: Calculate a bounded position size from account risk and stop distance, then prepare an auditable paper-order ticket with pre-trade limits and human approval evidence.
- LO6: Place and verify a paper-only trade through a controlled agent workflow while applying verify-then-trust checkpoints, logs, stop conditions, and rollback procedures.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.

Course Schedule

Day 1 — From Evidence-Led Research to a Controlled Paper Trade

Time	Duration	Topic / Activity
9:00–9:20	20 min	Welcome, safety boundary, course outcomes, and connected scenario
9:20–10:05	45 min	Topic 1 - AI trading agents, research evidence, and structured hypotheses
10:05–10:20	15 min	Tea break
10:20–11:10	50 min	Hands-on: Lab 1: Research an Idea and Freeze a Testable Hypothesis
11:10–11:45	35 min	Topic 1 - market-data contracts, feed coverage, adjustments, and quality gates
11:45–12:45	60 min	Hands-on: Lab 2: Fetch Market Data and Prove It Is Fit for Purpose
12:45–13:45	60 min	Lunch break
13:45–14:45	60 min	Topic 2 - rule specification, backtesting, realism, and audit
14:45–15:00	15 min	Tea break
15:00–16:05	65 min	Hands-on: Lab 3: Backtest the Rules and Audit the Evidence
16:05–16:35	30 min	Topic 2 - risk sizing, paper orders, human gates, and rollback
16:35–17:45	70 min	Hands-on: Lab 4: Size Risk, Approve, and Verify a Paper Trade
17:45–18:00	15 min	Verify final evidence pack, next steps, and Q&A

Total scheduled time: 480 minutes (8 hours) excluding lunch — of which 450 minutes (7.5 hours) are instructional, plus 30 minutes of tea breaks.

Lab Reference (aligned to course topics)

Topic	Coverage	Labs
Topic 01: From Trading Idea to Quality Market Data	2 of 4 labs (50%)	Lab 1, Lab 2
Topic 02: The Six-Step Trading Workflow and Staying in Control	2 of 4 labs (50%)	Lab 3, Lab 4
